■ BOOKCASES, BOOKSHELVES...	47 - 68
■ CABINETS	69 - 155
■ BEDS	156 - 164

It's all in the detail...

Attention to detail, both in build quality and finishing is what has set Jonathan Charles Fine Furniture apart, aided by the fact that all of the construction processes are undertaken in-house. Skills such as fine hand-carving, cutting marquetry inlay, hand-painting and finishing, even casting the brass handles and hardware – are all done within the Jonathan Charles facility. Confidence in the talents of its artisans, combined with stringent quality standards are reflected in the businesses' maxim - 'It's all in the detail...'

Jonathan Charles Fine Furniture is recognised as a top designer and manufacturer of classic and period style furniture. With English and French historical designs as its starting point, the company not only creates faithful reproductions of antiques, but also uses its wealth of experience to create exceptional new furniture collections – all incorporating a repertoire of time-honoured skills and techniques that the artisans at Jonathan Charles have learned to perfect.

Jonathan Charles Fine Furniture was established by Englishman Jonathan Sowter, who is both a trained cabinet maker and teacher. Still deeply involved in the design of the furniture, as well as the direction of the business, Jonathan oversees a skilled team of managers and craftspeople who make fine furniture for discerning customers around the world.

JONATHAN SOWTER, CEO & FOUNDER

TIER PROGRAMME

Jonathan Charles Fine Furniture has numerous ranges of furniture within a growing collection of over 1600 items. From time to time unforeseen demand for some products may mean that they are temporarily unavailable so a three-tier priority programme has been implemented in order to better monitor and manage inventory. The aim of this tier programme is to inform customers and fulfil their expectations by delivering furniture to them in the shortest possible time.

QUICK SHIP

The Quick Ship programme includes a number of select items from various Jonathan Charles Fine Furniture Collections that we commit to holding in stock and delivering within one to eight weeks. For our current range of Quick Ship items please refer to our QS Catalogue or go to www.jonathancharles.com and 'Search by availability' and then click on 'Quick Ship'.

STANDARD ITEMS

Included in the Jonathan Charles Standard items programme are approximately 800 products that we endeavour to keep in stock, but which we are unable to guarantee will be in our inventory at the time of ordering. Should an item not be in stock for immediate delivery then from time of order we aim to have that piece available within 12 weeks or less.

SPECIAL ORDER ITEMS

Jonathan believes that 'great style should never be discontinued'. Because we don't know what our customers might request from us in the future, all Jonathan Charles Furniture designs, past and present, are available "made to order". Should our customers require something that we do not currently have in stock, we ask them to contact our Customer Service Department who will then provide an estimated time frame for producing and delivering the chosen item(s). The customer can then make an informed decision on how to proceed with the order.

492132

With such a large repertoire of age-old skills and production techniques available in-house, it is no surprise that the Jonathan Charles designers have produced a collection of chests of drawers that is anything but plain. Along with our cabinets, this medium enables us to show off our skills to their full extent. From eye-catching oyster veneer to intricate marquetry inlays – the skillful quartering of veneers to form symmetrical patterns, the supremely authentic finishing – all crowned with our beautifully intricate and purpose-made brass hardware. It is small wonder, then, that far from being consigned just to the bedroom, Jonathan Charles Chests of Drawers are very often the eye-catching centre pieces of the very smartest reception rooms.

SCAGLIOLA

Scagliola (from the Italian 'scaglia', meaning scales) is a decorative technique originally developed to imitate marble. The key component was Selenite, a mineral with a characteristic scaly form which, when ground down to powder form, could be mixed with glues and natural pigments to imitate precious minerals. The scagliola process, although ancient in origin, was developed and refined in Germany and Italy in the 16th and 17th centuries, resulting in supremely decorative artistry that was highly sought after for use as table tops, on altars and for architectural decoration.

Bookcases, Bookshelves & Étagères

Why settle for unattractive plain shelving
when a Jonathan Charles bookshelf
or étagère not only does the job well –
but looks stunning at the same time!
From an intricately carved Georgian
mahogany bookcase to a delicate French
style étagère in a subtle rub-through
painted finish, the Jonathan Charles
collection offers a multitude of attractive
storage and display solutions.

It's all in the detail... CABINETS & BEDS

Beds

When you consider that we spend a third of our life in our bedroom, then it doesn't seem extravagant to want Jonathan Charles furniture in the bedroom too! Our growing bed collection is based around popular historical French and English designs. With each of our bed designs, we create a range of complementary furniture such as nightstands, chests of drawers, dressing tables and wardrobes – all carefully engineered to be as practical as they are beautiful.

LEGAL DISCLAIMER

DIMENSIONS

All dimensions, whether given in metric or imperial, are liable to be rounded up or down to the nearest whole number.

IMPROVEMENTS

Jonathan Charles Furniture operates a policy of constant improvement and therefore reserves the right to make changes to any item without notice.

APPEARANCE

Jonathan Charles' masterpieces are manufactured to the highest standards. The unique nature of wood and the other materials that are used in production means that no two pieces of furniture will be exactly alike. Jonathan Charles Furniture makes every effort to ensure that each item is produced to our exacting standards, but cannot be held responsible for slight variations in finish, colour and general appearance.
